EXPERIENCE

Junior Web Developer

Apr 2026 - June 2026 | TechnoTaLim Platform and Services LLP

- Developed and maintained web applications across frontend and backend components.
- Built responsive user interfaces based on project and product requirements.
- Debugged, tested, and refined application features.
- Used Git/version control to manage and maintain project code.
- Communicated with leads to understand requirements and support product development.

Python Intern

Feb 2025 - Apr 2025 | Wogle Tech

- Developed mini-projects using Python, including a gesture-controlled smart board and a handwriting-to-text conversion tool.

RELEVANT PROJECTS

Personal Portfolio Website

Astro | React | TypeScript | Tailwind CSS | Supabase | Framer Motions | Lucid React

Built a responsive portfolio to showcase projects, skills, experience, and achievements. Developed an admin dashboard to manage portfolio content, reorder items, and review contact enquiries.

Zerone 2026 Website

Next.js | React | TypeScript | Tailwind CSS | Zustand | NextAuth.js | TypeScript

Developed a full-stack website for managing registrations and user interactions for a national-level tech fest.

Glow Connect - Landing Page

Astro | Tailwind CSS | Node.js

Developed a landing page for Glow Connect, a modern beauty marketplace platform that helps users discover verified salons, spas, and beauty professionals, book services, and connect directly with providers.

Quran Thafseer Webapp

Next.js | React | TypeScript | Tailwind CSS | MongoDB + Mongoose | NextAuth |

Designed and built several modules of this web-based Quran learning platform that allows users to read Quran verses, compare translations, explore word meanings, and access tafseer content in an intuitive and accessible interface.
